

Atlantic to Feature Packaging Materials & Equipment at IPPE 2020 Booth B4551

Protein processors have unique and specific operational needs that extend through all aspects of the packaging operation. Timing, quality, and accountability are critical in dealing with packaging and transporting fresh product. Washdown ready equipment is crucial. And preventing downtime in the plant is necessary to save precious time, money, and resources.

At Atlantic, we bring value to the processing industry through hands-on, in-plant experience for over 40 years. We understand the importance of **coming through with material orders on time and on-demand**. We have experience with the automated equipment you need and the network to get it installed and maintained. Plus, we have a **robust technical service program** to keep your equipment up and running.

In addition to meeting your specific day-to-day needs, Atlantic is also dedicated to helping you meet your goals to **become more operationally efficient**. Our salespeople in the protein processing industry are experienced problem solvers, with the ability to test and verify materials and packaging methods at our **Packaging Solution Center**.

At IPPE 2020 **Booth B4551**, we're excited to show you how we can partner with you through every step of your packaging operation. We are your source for combo liners and covers, we provide a variety of films, bags, pouches, labels, cartons, and inserts, and we source, supply, service, and inventory the materials and equipment you need up-to-and-including your truck seals.
