

**REDUCE DOWNTIME.
REDUCE MATERIAL WASTE.
INCREASE SAFETY.
SAVE MONEY.**

FORGET DIFFICULT TAPE ROLL CHANGEOVERS THAT CAN SLOW PRODUCTION, PLACE UNNEEDED STRESS ON OPERATORS AND REDUCE EFFICIENCY IN PACKAGING OPERATIONS. SEE HOW YOU CAN KEEP YOUR LINES RUNNING AT PEAK PERFORMANCE WITH THE INNOVATIVE GUARDIAN® TAPING SYSTEM.

HOW DOES AN SSCI WORK?

“CURRENT STATE” VS GUARDIAN®

We compare your current case packing and sealing operations against that same operation with Guardian® Taping System installed.

- INFO NEEDED:**
-  **SCOPE OF PROJECT**
Select case packing/sealing line to be monitored
 -  **FINANCIAL VALUES**
Annual tape usage, labor rate, estimated cost of downtime
 -  **ACCESS**
To the line and a few minutes of downtime to retrofit your equipment

IDENTIFYING ISSUES Our packaging experts will identify potential issues, like:

TAPE USAGE AND WASTE
Including the amount of tape used per case, wasted due to application issues, and unusable tape left on the core

TAPE APPLICATION DEFECTS
Including no tape, broken tape, loose tape, uncut tape, and tab length variations

MACHINE DOWNTIME
To determine root causes like correction of tape application defects, tape jams, and tape roll changeovers

MANUAL REWORK
Reworking improperly taped cases, clearing tape jams, and tape roll changeovers

WE'LL DELIVER THE FINDINGS

Including a consolidated report with quantified projected annual savings and descriptive observations with images.

READY FOR US TO SHOW YOU HOW GUARDIAN CAN BENEFIT YOU?
