To: All Atlantic

COVID-19 UPDATE

As we begin another week under the continued threat of the COVID-19 pandemic, I want to begin by expressing immense gratitude to each and every one of you. During the most challenging time in generations, Atlantic is stable, healthy and well-positioned to deliver on our responsibility to the critical supply chain of our country. Your sense of urgency, supportive engagement, and personal responsibility has allowed us to create a safer and more secure environment for each one of you, our suppliers and our customers.

What will happen over the coming weeks and months is uncertain, but our continued vigilance must be absolute. We fully understand that these working conditions are not optimal, but I want to personally thank each of you for responding and cooperating so effectively. I have been amazed at how quickly and efficiently Atlantic was able to implement safety protocols. This level of continuity in the midst of crisis is something to really be proud of as an organization and as individuals.

As we progress through this week, please continue to monitor your health, wash your hands frequently, drink plenty of water, disinfect your home or workplace, take your temperature daily and alert your doctor if you feel ill. Practice social distancing. The only way we can hope to contain this virus is to limit the spread. We all have a responsibility to limit our person to person contact. Eat good food, exercise and rest. We all need to be at our very best and remain calm and positive. I fully understand this is stressful. It is for me too.

Here are the full recommendations of the CDC:

<https://www.cdc.gov/coronavirus/2019-ncov/prepare/prevention.html>

Above all else, BE WELL. Know that Atlantic cares about you. Let's be our best this week. It takes the serious attention of each of you. THANK YOU. THANK YOU.

Wes Carter
